Texts for Sewer pump house, Rick looking into this

911 Rhoades Street report given by Sean Brister.

Water rates to go up next year, we have had water study within the past 5 years. Sewer rate increase will have to be done in public meeting.

Alderman Staci Satterfield asking about water bills resulting from calls from constituents and wanted to know how they are calculated. City employees read meters and the office clerks enter the reading. If a re-read is necessary employees go out and re-read the meter. There is a base amount that covers the first thousand and another charge for each gallon used thereafter. Consistency is another complaint. The constituent thought they were going to be charged for us to go check for the leak. They will not unless we pull meter and send it off to test for leak and there is nothing wrong with meter then they may be charged.

Mark Fisher mobile home issue will be discussed on April 26, 2022 meeting.
